

LAND O LAKES® Calf Insure® Calf Supplement

CONTAINS A SOURCE OF LIVE (VIALE), NATURALLY OCCURRING MICROORGANISMS.

WHY CHOOSE CALF INSURE®?

LAND O LAKES Calf Insure® is a calf supplement for maintaining gut health.

- A unique combination of direct fed microbials including a calf specific bacillus.
- Fulfill® Feed Additive, an excellent source of prebiotic polysaccharides to optimize immunocompetence.
- Victus® Calf along with vitamin B & C provides an anti-oxidant platform to support immune function.
- Non-medicated formula requires no VFD and no withdrawal period.

Unlike most other probiotic supplements that contain lactobacillus, the combination of microbials used in Calf Insure® do not produce D-lactate. D-lactic acidosis has been found to be common in calves with diarrhea and interferes with brain function and can lead to weak or no suckling response. Probiotics that contain lactobacillus can worsen this problem.

Available in a 25 lb pail, and coming in April, a new 8 lb ziplock pouch.

GUARANTEED ANALYSIS

<i>Bacillus subtilis</i>	128 billion CFU/lb
<i>Enterococcus faecium</i>	64 billion CFU/lb
Vitamin C, not less than	8,000 mg/lb
Vitamin A	600,000 IU/lb
Vitamin D ₃	55,000 IU/lb
Vitamin E	3,200 IU/lb

INGREDIENTS

Dextrose, Yeast Extract, Dried *Bacillus subtilis* Fermentation Product, Maltodextrine, Dried *Enterococcus faecium* Fermentation Product, Calcium Carbonate, Citric Acid, Vitamin E Supplement, Vitamin A Supplement, Ascorbic Acid, Vitamin D₃ Supplement, Carotene, Silicon Dioxide, Riboflavin Supplement, Thiamine Hydrochloride, Thiamine Mononitrate, Vitamin B₁₂ Supplement, d-Calcium Pantothenate, Biotin, Niacin Supplement, Pyridoxine Hydrochloride, Folic Acid

MIXING AND FEEDING DIRECTIONS

Feed an initial 5X dose (36 g or 0.08 lb) or feed two initial doses of 22 g or 0.05 lb. Thereafter, feed ¼ oz (7.1 g or 0.016 lb) per feeding (based on 2x daily feeding). Start feeding LAND O LAKES® CALF INSURE® at the first feeding after colostrum, and feed it for at least 14 to 21 days. Can be mixed into pasteurized milk or milk replacer.

Large batches:

Feed 1 lb per 64 calves per feeding or 1 lb per 32 calves daily.

Calf Insure® calf supplement contains Victus® Calf antioxidant platform, which when mixed, will appear orange.
